

A STRANGE CASE.

How an Enemy was Foiled.

The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that existed in my arms, hands and legs. I had to run and beat those parts until they were sore, to overcome in a measure the dead feeling that had taken possession of them. In addition, I had a strange weakness in my back and around my waist, together with an indescribable 'chill' feeling in my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there was no relief. Once it fastens upon a person, they say, it continues its insidious progress until it reaches a vital point and then a soldier dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit. Then I saw an advertisement of Dr. Miles' Restorative Nervine, procured a bottle and began using it. Nervous as it may seem, I had a few days' rest before every bit of that creepy feeling had left me, and there has not been even the slightest indication of its return. I now feel as well as I ever did, and have gained ten pounds in weight. I had run down from 130 to 115. Four others have used Dr. Miles' Restorative Nervine on my recommendation, and it has been as satisfactory in their cases as in mine. James K. Rine, O. Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It is free from opiates or dangerous drugs.

HANDY THING TO HAVE.

No House Should Be Without a Feather Duster Holder.

Easily Made if the Instructions Given Below Are Carried Out—But a Few Cents Needed to Buy the Material.

The feather brush is as popular as ever as a useful ornament for a drawing-room, and there is, therefore, no excuse to be made for dust upon brackets, pictures or trinketshelves of any sort. The holder shown here is, as seen from the sketch, by no means elaborate, and

FEATHER DUSTER HOLDER.

most of the effect depends upon the colors and materials employed for it.

Of course it is made up on a foundation of stout cardboard, which is cut into a diamond shape and used with one point uppermost, the brush being slipped into a loop specially made for it. Cut a piece of moire, or of satin, or velvet, or plush, for the front, just about one-half inch larger all round than the cardboard. Cut also a band of buckram about two inches wide, and three inches longer than will stretch across the diamond horizontally from point to point. Cover this buckram with plaid or velvet to accord with the rest of the covering, and line the middle of this band with a scrap of silk; the ends need not be thus lined. Sew a number of little imitation gems, or large spangles, at equal distances along the center of this band, and add some small pompons or drops of some kind to the lower edge. Lay this band across the center of the satin from point to point, sew it down firmly at each end from the wrong side, but leave the exact middle of the band slack so that the handle of the brush will slip easily into it. The reason for lining the middle part of the band is now obvious.

Now stretch the satin very tightly over the cardboard, drawing the raw edges together on the wrong side with lacing stitches of strong thread. Be careful to get the band in the middle quite straight, for the holder will be anything but ornamental if this is crooked. It is as well to add the cord round the edges below the band, the bow at the tip of the point, and the ring to hang the holder up by, before lining the back neatly with satin or a piece of plain silk.

It is quite possible to make up the feather brush itself at home, if the worker is anxious for the whole thing to be of her own workmanship, or if she happens to have a number of fancy feathers that she would like to use up. A "turned" stick is needed, which may either be gilded or enamelled. Take the shortest of the feathers and arrange them with the tips downward round the lower edge of the stick. Tie them firmly in place with some fine twine, and glue this well to prevent it from coming untied. Add a second set of feathers rather longer than the others, and secure them also with fine twine, gluing this as before. Continue this until the brush is full enough, and hide the ends of the last set of feathers with a "sugar-paper" shaped piece of velvet, secured here and there with a touch of glue, and having a band of wide gold braid tacked round the upper edge to hide the place where the velvet and stick meet. The lower edge of the velvet should be ruffled. It is a good plan to use kid or leather instead of velvet, and there should be no difficulty in getting this of a good and suitable color, as many bookbinders will dispose of scraps left over from their own work.

Mats for the Table.
It is too bad to have one's polished tables and stands covered with little rashes where a vase has stood and the water has overflowed. There is no need of this, either. Everybody should have on hand an abundant supply of these mats. These need not be obtrusive in design. In fact, no one wants any more the elaborate confection that were once wont to call attention to their crocheted splendors in our drawing rooms. Make the latter-day vases of small rounds of olive-green felt, preferably not ornamented at all except for a "pinked" border. No one will notice them, but they will keep your rosewood and mahogany from harm.

Punctuality Is a Virtue.
The habit of being always a little late is so general that it might seem unavoidable, were it not that punctuality is secured from the very persons at fault when the occasions are as guarded as in the wedding to which the foolish virgins failed to gain admission because "the doors were shut." It is better to train up children to order, punctuality, honesty in keeping engagements, as a part of keeping one's word, and so teach them not only self-reliance, but make them men and women on whom reliance may be placed.

Why Women Chew Gum.
Some one buying chewing gum at a candy shop lately began to apologize for the plebeian purchase: "Oh, we don't think anything about it any more," replied the saleswoman. "So many women chew gum for dyspepsia that we always take it for granted that that is why it is wanted."

THE IMPERTINENT BABOON AND THE ATHLETIC CROCODILE.

HAT PIN CUSHIONS.

Two Pretty Designs Which Can Be Made at Small Cost.

In these days when hat pins are as much of a fad as of a necessity withal, as stick pins, it is desirable that appropriate receptacles be provided for them in order that they shall not mar the dainty toilet cushion with their huge perforations. Where a suspended cushion seems most convenient the always attractive little Japanese doll may be utilized. Choose one with a head measuring six inches in circumference. To dress one, as shown in Fig. 2 in the illustration, fold a half-yard of three-inch ribbon together and crease it to designate the bottom of the cushion. Sew thirteen small gilt spangles along the bottom, with a gilt bead in the middle of each to fasten it on. Overhand the sides of the ribbon to within an inch and a half of the opposite end; stuff with hair or wool and fasten it around the doll's neck. A half-yard of the same ribbon is cut in two and folded lengthwise for the sleeves; overhand, turn in the ends at the bottom, and attach to the dress at the shoulder. Now take a yard and a quarter of half-inch ribbon, fasten it over the shoulder and tie about the waist with bow and ends in front, although the really Japanese lady always wears her sash ends behind, neatly tucked up into a sort of roll or cushion. A loop of this same ribbon is fastened to the belt in the back to suspend the cushion by. Decorate the sleeves and shoulder straps with spangles and beads, and finish with a fringe of the beads. Letter on the skirt "Hat Pins" in gilt, forming the letters to look as much like Japanese characters as possible.

The standard cushion shown in Fig. 1 requires a bit of thin cardboard, five by nine inches, for the sides of the foundation, and a circular piece two and a half inches in diameter for the bottom. Cover these with any pretty scrap of silk or plush, fitting the outside snugly about the cardboard, which you have sewn in a cylinder; sew in a piece three and a half inches in diameter for the top, leaving an aperture through which you may stuff the cushion, rounding up the top. If all your toilet appointments are white, cover this with a ruffle of lace of fine dotted Swiss, and tie at the top with bows and loops of narrow ribbon.—American Agriculturist.

SANTA FE ROUTE.

ON TO WASHINGTON.

The Santa Fe Route is a L. W. Rate For Knights of Pythias Conclave.

The Santa Fe route has again taken the reins in its own hands by announcing that it will make a one fare round trip rate for the great Knights of Pythias convocation at Washington, D. C., regardless of action of other lines.
Dates of sale will be August 23 and 24, final limit Sept. 8, which can be extended to Sept. 15, by deposit with joint agent in Washington.
There is no restriction to return on specified dates. Privilege will be allowed of coming back to eastern gateways of A. T. & S. F. R. R. by a different line than that used going. Two concessions are not only available for K. of P. but are open to the general public.

ANNUAL REUNION.
G. A. R., Pittsburg, Pa.—Santa Fe Route.

To enable comrades, their families and friends to make this trip to the great national Grand Army and Naval reunions at Pittsburg, Pa., the Santa Fe, always first to arrange for the comfort and accommodation of its patrons, has made the low rate of one fare for the round trip. Also note the Santa Fe will accept these tickets for return passage on any date to and including September 25. Tickets sold September 7 and 8.

To Denver and Return.
The Santa Fe route sells round trip tickets at \$10, August 10 and 11. For particulars see ROWLEY BROS., City Passenger Agents.
